

Celebrating Women's History Month!

To honor the women in your life, we invite you to apply **or** recommend women to be part of the **Muriel E. Gilman Women in Action Mentoring Program**.

Ellen Kullman, DuPont CEO, talked with us recently about the power of mentoring and her important role as a mentor to women and men around the world.

The **Women in Action Mentoring Program** engages women in powerful mentoring relationships to enhance their effectiveness in their personal, professional, and community service lives. The program is sponsored by United Way of Delaware and is open to all adult women in public, private and nonprofit sectors in Delaware (and nearby) with an interest in being part of an extraordinary mentoring experience.

Please apply **or** share this information with women you care about.
